

Telemarketing is an invasion of my home, simple as that! Several time per week I am forced to drop what I am doing and RUN to answer the phone, only to hear a sales pitch. I tell them that I have NEVER responded to a phone advertisement and "please do not call", only to be called by the same outfit the very next week. Lately my answering service is recording these calls even when I'm not home. Meanwhile, they are tying up MY PHONE LINE, which I PAY FOR!

At a minimum, I would like to see a national opt-out list, but it makes MUCH more sense to me to have a national "opt-IN" list. It should not be MY responsibility to prevent this abuse.
